1. **Function.** Maximize soldier readiness.
2. **Key management controls.**
 - a. Commanders will maximize individual soldier readiness by identifying and correcting non-deployment conditions using deployment criteria in table 3-2.
 - b. Commanders will comply with the Soldier Readiness Program (see AR 600-8-101, chap 4). Key management controls are identified in AR 600-8-101.
3. **Management control evaluation process.** During in-and-out processing, at least annually, and if needed within 30 days of deployment, commanders are required to ensure that soldiers' eligibility for deployment is checked and defects corrected (see criteria in table 3-2).
4. **Criteria.** Table E-1 of AR 614-30 indicates the criteria used to determine overseas tour lengths.
